Zoom Webinar Tips

❖ If you don't have Zoom on your computer, you'll need to download and install it. Also, Zoom updates their software pretty regularly, so if it's been awhile, you might need to go ahead and download the latest version.

❖ If you're using your phone or tablet, **Zoom does have an app you can download.**

❖ I will go live at the scheduled time. Click the link at any time to join in. The webinar will be recorded. I will email when it is ready for your viewing. It will be accessible via a password protected page on Homegrown Learners.

❖ I will be the "Panelist". Don't worry, I cannot see or hear you.

❖ You will be able to chat real time using the "Chat" feature. Please be sure your drop down chat feature is set for "Everyone" – if it is set to "All Panelists" only I will be able to see your chat.

❖ Join or exit the webinar as you wish.
